

Best Theatre Arts: Environment Policy

Best has a responsibility to take proper care of the environment on behalf of our Customers, Staff and Communities in which we operate. Caring for the environment is an essential part of the way we run our business. Best will comply fully with environmental legislation and is in addition committed to continued efforts to:

1. Promote environmental management policies and practices at every level and in every division of Best.
2. Increase awareness of environmental responsibilities among staff.
3. Minimise waste and pollution and develop and operate environmentally sound waste management procedures.
4. Continue to reduce the consumption of fossil fuels and to incorporate long term strategies for energy efficiency into planning and development.
5. Continue to encourage and facilitate modes of transport by staff which minimise environmental impact, and to apply environmentally friendly principles to the operation of Company owned vehicles
6. Reduce water consumption
7. Promote a purchasing policy which will give preference, as far as practicable, to those products and services which cause the least harm to the environment.
8. Avoid wherever practical the use of environmentally damaging substances, materials and processes.
9. Consider environmental factors in respect of the growth of Best, seeking as far as it is practical to reduce harmful environmental impacts and integrate new developments into the local environment.
10. Work with other local, national and other agencies as appropriate to promote environmental policies.

Environmental audits and inspections will be undertaken to monitor our progress against this policy.
